Software development

Plan, track and release great software. Get up and running quickly with templates that suit the way your team works. Plus, integrations for DevOps teams that want to connect work across their entire toolchain.

Kanban

 Jira Software

Visualise and advance your project forward using issues on a powerful board.

Scrum

 Jira Software

Sprint toward your project goals with a board, backlog, and timeline.

Top-level planning

 Jira Software **PREMIUM**

Monitor work from multiple projects, and create an easy-to-share plan for stakeholders.

Scrum

◆ Jira Software

Sprint toward your project goals with a board, backlog, and timeline.

Change template

2 Choose a project type

⚠ You'll need to create a new project if you decide to switch project types later.

Team-managed

Set up and maintained by your team.

For teams who want to control their own working processes and practices in a self-contained space. Mix and match agile features to support your team as you grow in size and complexity.

Select a team-managed project

Company-managed

Set up and maintained by your Jira admins.

For teams who want to work with other teams across many projects in a standard way. Encourage and promote organizational best practices and processes through a shared configuration.

Select a company-managed project

Review columns and statuses on the board

Save changesGo back?

Assign statuses to a column to show them on your board. If you want to hide a status, keep it in the left panel.

Unassigned statuses

Drag and drop a status here to hide it from the board and backlog. Issues with these statuses won't be visible.
